Year	2008-2016	Fit Kits	Z039.10607
Notes	Where not supplied use original fittings	dB Killer	Z038.10540 (TYPE MM)

A) Unbolt the lambda sensor from the original pipework, then remove original exhaust from bike. Taking care to keep all original components in a safe place.

B) Fit the header pipe using O.E nuts finger tight, then re-fit the lambda sensor and tighten fully.

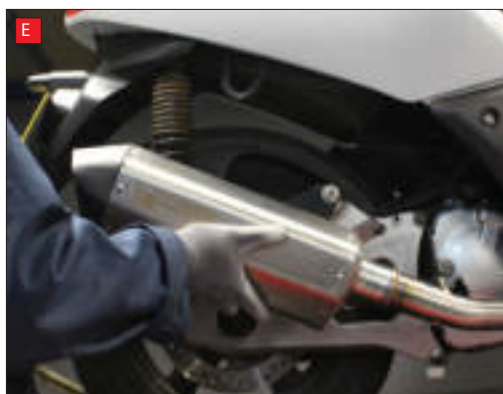

C) Slide the connecting pipe onto the header pipe, remember to have the clamp loosely over the connecting pipe.

D) Fully bolt the bracket to the bike.

E) Slide the silencer on to the connecting pipe.

F) Mount the silencer to the bracket ensuring you're using the correct bolts and spacers. Once happy with the alignment of the system tighten all fittings.

G) Fit the springs to secure the fitting between the silencer and connecting pipe.

H) When fitted, take scooter for a short test run, upon return allow bike to cool and check all nuts and bolts are secure.
